

Dominion® KX III G2 Firmware Release Notes

Firmware Version: KX III G2 4.1

Release Status: General Availability (GA)

Date: February 23, 2026

Dominion KX III G2 Overview

The KX III G2 is Raritan’s enterprise KVM-over-IP switch family. Featuring a modern hardware design with increased computing power and storage, the KX III G2 provides KVM-over-IP access for IT administration, as well as high performance IP access for broadcast, control rooms, labs, and other dynamic applications. The optional Dominion User Stations (DKX3-EUST and DKX4-EUST) provide high performance access for studios, labs, and control rooms.

Release 4.1 Firmware Overview

Dominion KX III G2 Release 4.1 is a General Availability (GA) Release for applicable KX III G2 products groups. This release may include performance and productivity improvements, support for new products and accessories, new features and enhancements, bug fixes, and general fixes for specific model families. Specific updates are outlined below.

Important Note
