# Xerus Firmware Release Notes

**Version:** Xerus 4.3.14 / Build 52917

**Release Status:** General Availability (GA)

**Date:** July 17, 2026

Xerus 4.3.14 Firmware is a GA Release and may include performance and productivity improvements, support for new products and accessories, new features and enhancements, bug fixes, and general fixes for specific model families.

## Applicability

This firmware release applies to the following product groups and models:

| Product Group | Model |
|---|---|
| Raritan® Rack PDUs | PX4 |
| Raritan Inline Meters | PX4 |

## Upgrade Path

This firmware release is intended for factory shipments and firmware upgrades for the units/models listed in the Applicability table above. If you are unsure of your unit's model number, it is typically visible on the Device Information page of the GUI and also printed on a label on the device. (This release may not support some custom-engineered models.)

The release package for this firmware update is available at raritan.com/support/product/pdu-g4.

**Due to file system changes in Xerus 4.0.x, the following upgrade paths must be followed**, or the Xerus-based device may become inoperable and require manual recovery.

| If the Applicable Device's Current Firmware Version Is... | Follow These Upgrade Steps |
|---|---|
| **Xerus 4.0.x, 4.1.x** | » 4.2.0 » 4.3.14 |
| **Xerus 4.2.x, 4.3.x** | » 4.3.14 |

*Note*: Do NOT downgrade your new Xerus-based product(s) to any prior Xerus Firmware release. A downgrade to ANY prior firmware release is NOT SUPPORTED.

## Release Highlights
